(1) This section should be adapted for country-specific survey design.

Note: Questions with blue highlighting in the question number column are HIV related questions that may be deleted in some circumstances (see footnotes). Questions with yellow highlighting in the question number column are other questions that may be deleted in some circumstances (see footnotes).
**SECTION 1. RESPONDENT'S BACKGROUND**

### INFORMED CONSENT

Hello. My name is ____________________________. I am working with (NAME OF ORGANIZATION). We are conducting a survey about health all over (NAME OF COUNTRY). The information we collect will help the government to plan health services. Your household was selected for the survey. The questions usually take about 20 minutes. All of the answers you give will be confidential and will not be shared with anyone other than members of our survey team. You don't have to be in the survey, but we hope you will agree to answer the questions since your views are important. If I ask you any question you don't want to answer, just let me know and I will go on to the next question or you can stop the interview at any time.

In case you need more information about the survey, you may contact the person listed on the card that has already been given to your household.

Do you have any questions? May I begin the interview now?

**SIGNATURE OF INTERVIEWER:** ____________________________  **DATE:** ____________________________

RESPONDENT AGREES TO BE INTERVIEWED . . . . . 1  RESPONDENT DOES NOT AGREE TO BE INTERVIEWED . . . 2  → END

</table>

1. If Standard Days Method is commonly used, it may be added to the table before Lactational Amenorrhea. "Standard Days Method (use local term, such as CycleBeads™, as appropriate) PROBE: A woman uses a string of colored beads to know the days she can get pregnant. On the days she can get pregnant, she uses a condom or does not have sexual intercourse."

2. The LAM method should be deleted in countries that do not have a LAM program. In these countries, LAM should also be deleted as a coding category in Q. 439. A description of LAM should not be provided in Q. 301.

3. Studies have indicated emergency contraception can be effective up to five days. Verify country program recommendations and modify wording if appropriate.

4. Coding categories to be developed locally and revised based on the pretest; however, the broad categories must be maintained.

5. The question should be deleted in countries where female condoms are not actively promoted.

(1) Delete Qs. 405-409 in countries where polygyny is not practiced and replace with Q. 605 from the Woman's Questionnaire with the word 'HUSBAND'S' replaced with 'WIFE'S' and 'HE' replaced with 'SHE'.
(2) In countries with an active female condom program, the wording of the question should be modified to include reference to both the male and female condom.
(3) High polygyny high HIV prevalence countries may want to add line number of wife from Q. 407 here in the response category.
(4) Coding categories to be developed locally and revised based on the pretest; however, the broad categories must be maintained.
(5) The LAM method coding category should be deleted in countries that do not have a LAM program.

Now I would like to ask you some questions about your health in the last 12 months. During the last 12 months, have you had a disease which you got through sexual contact?

Sometimes men experience an abnormal discharge from their penis. During the last 12 months, have you had an abnormal discharge from your penis?

Sometimes men have a sore or ulcer near their penis. During the last 12 months, have you had a sore or ulcer near your penis?

The last time you had (PROBLEM FROM 726/727/728), did you seek any kind of advice or treatment?

(1) If Qs. 703, 705 and/or 706 do not apply to the local context, replace the question using a specific local misconception. At least two questions related to misconceptions are needed.
(2) The question may be deleted in countries with a very low HIV prevalence.
(3) Coding categories to be developed locally and revised based on the pretest; however, the broad categories must be maintained.
(4) In polygynous societies, the phrase 'other women' should be replaced by the phrase 'women other than his wives.'

814 RECORD THE TIME.

- HOUR .................
- MINUTES .............

(1) Question may be omitted depending on the practice of male circumcision in specific countries.
Translation of circumcision should indicate removal of the foreskin and not merely coming of age ceremonies.

(2) Add local terms.

(3) If a health service prepayment plan or other types of plans are available in the country, add those types of plans to the question.
